Full-Stack Developer with hands-on experience building complete web applications using React, Angular, Next.js, Node.js and modern TypeScript. Experienced with authentication, REST APIs, real-time features, state management, databases and cloud deployment. Seeking an entry-level role where I can contribute to real products and continue developing within a collaborative team.

TECHNICAL SKILLS

Languages

JavaScript, TypeScript

Frontend

React, Angular, Next.js, HTML, CSS, Tailwind CSS, Angular Material

Backend

Node.js, Express, REST APIs

Data & Services

MongoDB, Mongoose, PostgreSQL, Firebase, Supabase

State

Redux Toolkit, NgRx, RxJS, React Context

Tools & DevOps

Git, GitHub, GitHub Actions, Vite, Vercel, Render, Firebase Hosting, Azure Portal, Jenkins

EDUCATION

Software University

Professional JavaScript Program
Jun 2024 — Mar 2026

Veliko Tarnovo University

Bachelor's Degree in Applied Linguistics and Information Technology
Oct 2018 — Feb 2024

SELECTED PROJECTS

Job Board — Full-Stack Platform

React / Node.js

- Built a candidate and employer platform with job search, filters, saved jobs, applications and company management.
- Implemented JWT access/refresh tokens, Google OAuth, protected routes, roles and password recovery.
- Created employer dashboards, application status tracking, statistics and SSE real-time notifications.
- Added English/Bulgarian localization, validation, rate limiting and read-only demo safeguards.

React 19 TypeScript Redux Toolkit Express MongoDB

Quiz App — Learning Platform

Angular / Firebase

- Developed quiz CRUD, timed sessions, scoring, comments, user history and progress tracking.
- Integrated Firebase Authentication, Firestore real-time data, Storage and protected routes.
- Implemented NgRx actions, reducers, effects and selectors for quiz and profile state.
- Added achievements, streaks, leaderboard rankings and bug reports with image uploads.

Angular 20 TypeScript NgRx RxJS Firebase
